

Rev.		Date	Reason
1	02/19/07		first issue
2	06/16/07		R21, 21 changed 22K, 5K
3	12/27/07		changed pre-amp grounding
4	25/03/08		changed 6V6 connections points
5	17/06/11		Power Transformer connections
6	12/7/11		revised output jacks in parallel
7	30/05/12		updated voltages
8	22/09/14		added 4/8 ohm OT, updated PT spec
9	30/08/17		added 220V PT Connections; reorg schematic
10	7Jul18		Updated for new PT
11	27Aug18		Updated OT switch, optional screen resistors.
12	25Mar19		PT primaries corrected, R10/11 power rating removed, C9 changed to 400V

CLEAN MODS			
C1,C2 – change to .022 Orange Drop – reduce low end			
C7 – Remove to increase headroom			
Add 470K Resistor to Grid of Phase Inverter, pin 7 to clean up distortion			

Trinity Amps		Tweed
